

Refusal Visa SOP Sample - International Business Management

To,
The High Commission of Canada,
India

Subject: Request to approve my Study Visa Permit

Dear High Commissioner,

I write this in response to the refusal letter that I received against my visa application (Application No.: <application no.> & UCI: <uci no.>) on <date>. It is my deep desire to have a global learning approach in my preferred area of study which persuaded me to seek admission to St. Claire College in Canada to study International Business Management – Logistics Systems. The university found my application to be in good light as a consequence of which they offered me the Letter of Acceptance. However, the visa committee refused my previous visa application on one ground.

Now, I wish to justify my refusal ground to the best of my ability so that I am credited as a worthy candidate for the Study Visa Permit for Canada.

Refusal Ground – *I am not satisfied that you will leave Canada at the end of your stay, as stipulated in subsection 216(1) of the IRPR, based on the purpose of your visit.*

TIES TO HOME COUNTRY

I am adamant about making a return to my homeland, India, as soon as my education in Canada concludes because, in India, my family lives with whom I have a very deep connection. My family comprises my father, my mother, and my younger sister. While my father works in <company name>, my mother is a homemaker and my sister is a student pursuing her B. Tech program. For my parents, education has always held the highest value during our growing up days. They made it a must to motivate us to push our limits and follow our career goals. They have had my back through thick and thin and never stopped believing in me. It is due to their constant support that I have managed to come this far. The love and support they have always showered upon me, I want to return it in the same manner by being at their service when they reach old age. I want to give them all the help in every aspect, be it financial or emotional. This is the top reason why I wish to make a quick return to India post the completion of my studies in Canada. Besides, my father owns a couple of properties in India of which I am the legal heir. Hence, in order to look after these properties when my parents get old, I have to get back to India.

ACADEMIC & PROFESSIONAL CREDENTIALS

My academic tenure so far has been a fruitful ride as it inculcated me with notable learnings. I did my Matriculation from Kendriya Vidyalaya School in which I attained <score>. After that, I went to CPE Junior College to study my Intermediate which I completed with <score>. Then, I chose to study Bachelor of Commerce from Presidency Degree College Sivajipalem Visakhapatnam which I finished with a <score>.

With the intention of gaining hands-on experience, I decided to do an internship in the field of Accounting <company name> for six months. All in all, my professional exposure up until now has imbibed me with notable skills and knowledge, to say the very least.

WHY ONTARIO COLLEGE GRADUATE CERTIFICATE IN INTERNATIONAL BUSINESS MANAGEMENT – LOGISTICS SYSTEMS?

I have zeroed in on International Business Management – Logistics Systems program because it aligns perfectly with my previous academic attainment and future aspirations. I am keen on building a business enterprise in the future that I wish to take on to an international platform one day and for the same, my chosen program seems apt. While studying this very program, I will be showered with miscellaneous meaningful insights that will widen my pool of wisdom while making me competent enough to emerge as a successful businessman in the near future. This very study program is going to acquaint me with various rewarding courses namely International Business Management, International Market Entry Strategies, Product and Service Development, International Trade Finance, Feasibility of International Trade, Global Value Chain, Operations and Supply Chain Management, Communications and Negotiations, Transportation and Trade, Essentials of Freight Forwarding, Logistics Management, Supply Chain Management Marketing and Business Planning, Legal Aspects of Transportation, Accounting and Financial Concepts, and International Marketing and Sales to name a few. The various job roles that I can work in after completing my chosen study program at St. Claire are International Marketing Manager, Purchasing Officer, Supply Chain Analyst, Freight Dispatcher, International Trade Research Assistant, Warehouse Manager, Transport Logistics Controller, Account Manager, Supply Chain Consultant, Inventory Control Specialist, and a lot more. All in all, this study program is the best way through which I can reach the apex of accomplishment in the realm of business.

WHY ST. CLAIRE COLLEGE?

I have opted for St. Claire College because it is regarded as one of the topmost colleges in all over Canada. The college is popular for offering tailor-made courses which are taught by educators who have many years of experience in their respective study areas. The learning infrastructure of St. Claire is also world-class, encompassing modern technologies which ensure that every student is exposed to up-to-date information. The student services provided by the college are also very helpful for international students. All these facilities that I will be bestowed upon during my study period in Canada will enable me to gain worthwhile skills while I simultaneously function in contemplation of the college circles.

WHY CANADA AND NOT INDIA?

Canada is my final study destination for my higher studies because it is worldwide renowned for boasting some of the top-rated colleges under its belt. Canada is number three on the list of top study destinations in the world. The tuition fee and living costs in Canada are also reasonably-priced which makes it easy for international students like me to pursue higher studies in the country. The institutes of Canada have an excellent education system and focus mainly on providing as much practical knowledge as possible. However, this is not the case in India as in the Indian institutions, more concentration is given to the theoretical knowledge which keeps the students away from absorbing the valuable practical skills that are needed for them to acquire proficiency in their respective domain of interest. As I yearn for global learning exposure, I believe I have made the best decision to choose Canada over India. In addition to that, what makes it easy to study in Canada is the fact that the country is a melting pot of culture that welcomes the students from different ethnicities with open arms, therefore, making it comfortable for the foreign students to spend their study days in Canada.

FUTURE PLANS

After completing my education in Canada, I ideate heading back to India and carrying along with me all the necessary knowledge and skills that are needed for me to thrive in the world of business. Upon my return, I will find myself a job in a leading position in one of the best multinational companies in India where I will put all the attained knowledge and skills into practice. Over the long haul, I plan to commence a venture of my own in India and take it to the pinnacle of success in not India but international level, thus making a significant contribution to the economy of India.

FINANCE FOR STUDIES

My whole education and livings costs will be endorsed by my father who is financially well sound. My family has a total asset base of INR15 crore and all the documents related to our family's finances are attached herewith for your reference. To note, I have already made the full payment of tuition fees which amounts to CAD16,277. I have also paid the GIC amount of CAD10,200 to cover my living expenses.

LANGUAGE PROFICIENCY

My stronghold over the English language comes from the fact that I have always studied in schools that had English as their mode of instruction. In the IELTS exam, I got an overall band score of 6.5 in which I secured 6.5 bands in Listening, 6.0 bands in Writing, 6.5 bands in Reading, and 6.0 bands in Speaking.

CONCLUSION

I, hereby, declare that I have full knowledge of the Canadian visa policies and am headstrong on abiding by the same until I return to my home country, India. On a final note, I heartily request you to reconsider my visa application and approve my Study Permit for Canada so that I can carve out a niche for myself in the domain of business.
