

## University Admission SOP Sample for France M.B.A

My desire to study management and business erupted from the culmination of my early life. I firmly believe that psychology and entrepreneurship go hand in hand as a driving force of any enterprise. Having an innate and insatiable curiosity to learn new things and the ability to dig into competitive analysis has allowed me to step forward towards shaping my career by deciding to pursue an MBA program. I was always a working person, though my overall experience has taught me how to identify and analyse problems. However, I need more professional knowledge to come up with solutions. I am confident that an **MBA from Grenoble Ecole De Management University** will help me bridge that gap. Also, Doing management will enhance my skills and give me an awareness of the global market and an environment of people with different business backgrounds. Although I have gained some communication and management skills from working in my own project and completing an internship, doing an MBA would help to sharpen my skills.

On account of my admiration for psychology, I sought admission into the Sage University for a BA Psychology (Hons). I opted for psychology and studied various subjects such as Organization Psychology, Entrepreneurship, Industrial Management Psychology, Developmental Psychology, Human behaviour, Social Psychology, Development Psychology and many more subjects in my bachelor degree. I developed multiple skills from my undergraduate courses such as Critical thinking, analytical skills, analytics skills, presentation skills, communication, interpersonal skills, organization and time management skills, also leadership and Teamwork skills. I completed my graduation with a CGPA of \_\_\_\_.

To challenge myself intellectually, I took up a project, {Name} The project's objective was to study the streaming behaviour of different age groups. It was a psychological case study on five volunteers and wrote a detailed case study book on the volunteer psychological nature, analysed their problems and proposed the most effective solution. These team projects proffered me with team management and many interpersonal skills and trained me to practically apply my theoretical knowledge.

As practical and industrial experience is critical for a career in psychology, I grabbed a {Period} internship opportunity during my undergraduate years. The internship was at the {Company} where I worked, and understood all the concepts of industrial psychology. **(please elaborate on your role in this internship.)**

I feel there is a need for me to upgrade myself to the next level, for which I have decided to acquire an international degree. Considering my academic background, professional experiences, and career trajectory, I am confident that pursuing an MBA is in my best interest. I will learn how to use algorithm of business in business world and how an organization works. Learning how core management works in a business will help me work in the management section of a company and gain experience. It will also help me learn advanced and flexible management skills which inturn will help me in managing projects and will also help me to work in an organization. I am confident that graduating from this University will accelerate my professional career, opening a world of opportunities and, more importantly, propel me towards a challenging platform to exercise my skills.

The **France** has set a benchmark for other countries. It offers students the opportunity to gain an internationally recognised and respected academic qualification. Studying abroad provides a broader variety of courses, including research options and skill-based training for students.
